Ruwantissa Abeyratne : Aviation Security Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Aviation Security Law:

The law plays a significant role in ensuring aviation security. This book addresses new and emerging threats to civil aviation; evaluates security tools now in use such as the Public Key Directory, Advance Passenger Information, Passenger Name Record and Machine Readable travel documents in the context of their legal and regulatory

background; and discusses applicable security treaties while providing an insight into the process of the security audits conducted by the International Civil Aviation Organization (ICAO). The book also examines issues of legal responsibility of States and individuals for terrorist acts of third parties against civil aviation and discusses from a legal perspective the latest liability Conventions adopted at ICAO. The Conclusion of the book provides an insight into the application of legal principles through risk management.

From the Back Cover The law plays a significant role in ensuring aviation security. This book addresses new and emerging threats to civil aviation; evaluates security tools now in use such as the Public Key Directory, Advance Passenger Information, Passenger Name Record and Machine Readable travel documents in the context of their legal and regulatory background; and discusses applicable security treaties while providing an insight into the process of the security audits conducted by the International Civil Aviation Organization (ICAO). The book also examines issues of legal responsibility of States and individuals for terrorist acts of third parties against civil aviation and discusses from a legal perspective the latest liability Conventions adopted at ICAO. The Conclusion of the book provides an insight into the application of legal principles through risk management.

About the Author Dr. Ruwantissa Abeyratne has worked in the field of aviation law and management for over twenty five years. He is currently Acting Deputy Director, Air Transport Bureau, at the International Civil Aviation Organization. He is also Professor of Aeropolitics and Law at the John Molson School of Business, Concordia University, Montreal.
