Martins Paparinskis : Basic Documents on International Investment Protection: (Second Edition) (Documents in International Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic Documents on International Investment Protection: (Second Edition) (Documents in International Law):

The increase in the number and complexity of investor-State treaty arbitrations in the last decade has attracted

considerable attention from practitioners and academics of international investment protection law. Rules aimed at regulating the protection of foreign investment have been expressed in a decentralised manner, making a clear and comprehensive overview of the topic important. This volume focuses on the relevant documents and aims to provide an exhaustive treatment of relevant procedural and substantive issues. It includes documents explaining the historical development of investment law, substantive investment rules (multilateral and bilateral treaties and model documents, and general rules on the law of treaties and responsibility) and procedural investment rules (relating to the arbitral process in different fora, immunity, recognition and enforcement). The new edition of this highly regarded book is aimed at teachers, students and practitioners in the area. It can be used both as a practitioners' handbook and as a classroom companion for courses on international dispute settlement and investment protection law.

About the Author Dr Martins Paparinskis is Reader in Public International Law at University College London.
