*Best Practices for Defending Tribal Membership Cases* provides an authoritative, insider's perspective on the critical importance of tribal membership to both the individual member and to the tribe. Featuring partners from some of the nation's leading law firms, this book describes the inherent value that comes with the unique knowledge, talent, efforts, and potential leadership each member contributes to the tribe's future and explains why membership means much more than mere citizenship. These experts guide the reader through the intricacies of tribes' blood quantum requirements and, depending on the tribes' own traditions, the often contentious nature of disenrollment litigation in tribal courts.
