Paul J. Taylor, Timothy Oliver, Michael Pether, Leonard Bingham : Bingham and Berryman's Motor Claims Cases before purchasing it in order to gage whether or not it would be worth my time, and all praised Bingham and Berryman's Motor Claims Cases:

"Bingham and Berrymans' Motor Claims Cases" is the leading work in this field and is written by experts in the field of PI and insurance law. This classic title provides practical guidance and information to all practitioners involved with motor and personal injury insurance litigation. Covering all reported cases relevant to claims arising out of road traffic accidents, it is a unique combination of practical procedural advice, legal background and diversity of case summaries within, but not exclusive to, the context of motor claims. It clearly explains the principles behind the assessment of damages and offers advice on practice and procedure in the conduct of claims. The new edition has been restructured and updated to give it a more modern and user-friendly style and the material has been reorganised into four new parts. The cost also includes any supplements which are published.
