Robert Duxbury, S.G.C. Morton : Blackstone's Statutes on Environmental Law (Blackstone's Statute Books)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Blackstone's Statutes
on Environmental Law (Blackstone's Statute Books):

Blackstone's Statute Books are designed specifically to provide students with a collection of statutes for use throughout their course, and now cover all the main law subjects. The series has been produced following careful research of the syllabuses of most law courses. As a result, the authors have been able to produce a concise collection of relevant statutes, eliminating some of the non-essential material and concentrating on the more important statutes. As many courses move towards allowing statute books to be taken into examinations, this series should be suitable for that purpose.

About the AuthorThe book has been compiled by Robert Duxbury and Sandra Morton. The editors are both lecturers at Nottingham Law School, Nottingham Trent University where they specialise in environmental law.
