Ray Tricker (MSc IEng FIET FCIM FIQA FIRSE) : Building Regulations in Brief, Third Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Building Regulations in Brief, Third Edition:

This easy-to-understand pocket book gives those working in the UK or with UK organizations sufficient and practical

information to enable them to comply with UK regulations in the simplest and most cost-effective manner possible. It takes away the mystique of the Building Regulations and provides an in-brief guide to meeting its requirements, providing simple and practical information on how the regulations can be easily and cost effectively adhered to. The author explains the meaning of the UK regulations, their history, current status, requirements, associated documentation and how local authorities and councils view its importance, also emphasising the benefits and requirements of these regulations. This new edition includes the latest revisions to Part P, Part A, Part C and Part E published in 2004 and 2005 as well as highlights from the consultation documents for Part L and Part F. Fully updated for revised Part P, Part A, Part C and Part E Practical information on how to comply quickly and easily to the regulations Each step in the building process detailed, with all regulations explained

About the Author Ray Tricker is the Principal Consultant of Herne European Consultancy Ltd - a company specialising in ISO 9000 Management Systems - and is also an established author. He served with the Royal Corps of Signals (for a total of 37 years) during which time he held various managerial posts culminating in being appointed as the Chief Engineer of NATO's Communication Security Agency (ACE COMSEC). Most of Ray's work since joining Herne has centred on the European Railways. He has held a number of posts with the Union International des Chemins de fer (UIC) (e.g. Quality Manager of the European Train Control System (ETCS)) and with the European Union (EU) Commission (e.g. T500 Team Leader, European Rail Traffic Management System (ERTMS) Users Group Project Co-ordinator, HEROE Project Co-ordinator) and currently (as well as writing books!) he is busy assisting small businesses from around the world produce their own auditable Quality and/or Integrated Management Systems to meet the requirements of ISO 9001:2008, ISO 14001 and OHSAS standards. He is also a UKAS Assessor for the assessment of certification bodies for the harmonisation of the trans-European high speed railway network.
