AudretschThis is an excellent treatment of CCC work throughout the Bureau of Reclamation area. Very readable and the author lists, for those who want to do more research, specific documents to look at. Well illustrated. Highly recommended. I purchased my copy of the book directly from the Bureau of Reclamation at a reasonable price.

The Bureau of Reclamation's Civilian Conservation Corps Legacy: 1933-1942, researched and written by Reclamation historian Christine Pfaff, is the only comprehensive study to focus on Reclamations CCC program. Included in the book is a brief overview of the national CCC program and a description of Reclamations CCC program, followed by individual forms containing the history and activities of each Reclamation CCC camp. Many historic photographs and camp site plans illustrate the publication. (Quoted From the Reclamation Bureau website).
