**Andrew Pittman, John O. Spengler, Sarah Young : Case Studies in Sport Law 2nd Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Case Studies in Sport Law 2nd Edition:

Case Studies in Sport Law, Second Edition, provides students with specific examples and perspectives of some of the most significant cases in sport law in an accessible tone that is free of legal jargon. The text is an ideal companion for non-law students who are seeking clarity and context for legal issues commonly encountered in sport management and sport law settings. The 87 cases provide real-life applications for students and scholars of sport management. This updated second edition of Case Studies in Sport Law contains one new case study to provide a more contemporary example while maintaining the most significant precedent cases. The text is easily incorporated as a supplement to course studies, especially for its recommended companion text, Introduction to Sport Law, Second Edition. These two

texts were designed with the other in mind, and the structures match each other in order of topics presented so that students can easily cross-reference the two to obtain the best understanding of sport law. The 87 cases in *Case Studies in Sport Law* have been carefully curated by a team of experts in the field and represent many of the multifaceted aspects of sport law. Some of the areas covered in the text are school districts, colleges and universities, interscholastic and recreational programs, professional sport franchises, sporting goods manufacturers and trademarks, and governing bodies. This broad approach encourages students to understand the impact of legal issues on the sport industry, including many of the areas that students are hoping to pursue as a career. *Case Studies in Sport Law* offers condensed versions of each case as opposed to the full legal proceedings, which enables students to grasp key concepts of the case instead of wading through legal jargon. The cases are divided into the main topics that are most prevalent in sport law courses: agency law, antitrust law, constitutional law, contract law, employment law, intellectual property, labor law, products liability, risk management, statutory law, Title IX, tort law, and the U.S. legal system. This is an easy-to-follow format that allows instructors and readers easy selection of cases based on the topic at hand. In addition to the abridged court cases, each section provides introductory information to prepare students on the type of law that will be examined and key concepts to bear in mind while reading. Further, each case study ends with review questions that can test student comprehension, be used for review, and prompt in-class discussions. Answers to these review questions are in the instructor guide, which is free to course adopters. Litigation and lawsuits in sport are increasing; therefore, managers and operators must maintain a thorough understanding of legal practices. *Case Studies in Sport Law* is the ideal text to supplement a sport management or sport law class and bolster student comprehension of sport law issues, and it is a supreme reference in the professional library of all practitioners in college, high school, professional, and recreational sport settings.
