Jennings, Marsh : Casenote Legal Briefs: Securities Regulation: Jennings Marsh Coffee before purchasing it in order to gage whether or not it would be worth my time, and all praised Casenote Legal Briefs: Securities Regulation: Jennings Marsh Coffee:

3 of 5 people found the following review helpful. Please don't pick this text!By A CustomerThis book may be a helpful desk reference for a practitioner, but it is not a practical introduction to Securities Regulation for a student. Most people in the course (even gunner, Law Review types) have given up reading the text, as it is very, very dense and yet still manages not provide the necessary context for the subject matter. We dislike it and it doesn't appear that the professor likes it any better than we do. I will say that the text is well edited and formatted - which often is not the case with legal texts.

The universally acknowledged work Securities Regulation is of immense day-to-day value to the practitioner. The authors' analysis of all relevant statutes plus thousands of cases, SEC administrative decisions and letters definitively clarifies such questions as: When does a note fall within the definition of a "security" How have the courts altered the express civil liability provisions of the federal securities laws? Can the SEC impose additional ten-day suspensions on trading without notice? Does scienter include reckless as well as intentional conduct? And countless others, so that you're almost sure to find coverage of the "small point" on which your case may turn. And with all its amazing depth

and scope, Securities Regulation continues to be the current authority on all of today's issues, with detailed coverage of: The Sarbanes-Oxley Act The SEC's disclosure requirements Internet securities trading Margin accounts The SEC's safe harbor initiatives SRO voting rights standards Regulation FD and selective disclosure of material non-public information SEC amendments to the tender offer, proxy, and merger rules Arbitrability of securities disputes And much more.
