Richard Briffault, Laurie Reynolds : Cases and Materials on State and Local Government Law (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cases and Materials on State and Local Government Law (American Casebook Series):

0 of 5 people found the following review helpful. State and Local Gov'tBy DaveBook was in great shape. Minimal highlighting and writing, plus book arrived in 3 days. Great seller0 of 5 people found the following review helpful. book in good conditionBy PhoenixBook arrived quickly and in good condition. Pleased with my purchase, though a classmate says he bought this same text from for \$20 less than I paid only 2 weeks prior to when I did. Hmmm ??

The 7th Edition continues earlier editions' conceptualization of the role, purposes and substance of Local Government Law. Early chapters both describe the legal characteristics of the myriad local government units and challenge the students to recognize the competing models of local government that undergird both the classic and recent cases in state and federal court. Later chapters take that theoretical understanding to a more practical arena, exploring local government powers, the state-local relationship, local government finance, and local government service provision. The Seventh Edition contains an enhanced treatment of school finance litigation as an emblematic example of interlocal inequality.
