Eric Holmes, William Young Jr : Cases and Materials on the Regulation and Litigation of Insurance (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cases and Materials on the Regulation and Litigation of Insurance (University Casebook Series):

Including but going beyond the basics of insurance contract, tort, remedies, and commercial law regulation and litigation, this book highlights insurance law in action using the business as a proving ground for federal-state relations, for the powers of administrative agencies and corporate governance, and for new formulations of tort and

statutory law. It traces the fortunes of the business from Lloyds coffee house and before to the Trade Towers and after. This book is ample for at least a three-hour course. It lends itself to a shorter one, and in either case, by variety, to selective emphasis.
