Constantine Samaras, Jeffrey A. Drezner, Henry H. Willis, Evan Bloom : Characterizing the U.S. Industrial Base for Coal-Powered Electricity (Rand Corporation Monograph) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Characterizing the U.S. Industrial Base for Coal-Powered Electricity

(Rand Corporation Monograph):

To determine whether the industrial base for the U.S. domestic coal-based electricity generation industry can maintain the capability to design, construct, operate, and maintain coal-fired electricity generating units within reasonable cost, schedule, performance, environmental, and quality expectations, this book reviews interviews with stakeholders and data describing key elements of industry capability and validation or verification of concerns.
