Mostly it was for the worse, because I don't really like civil law.This is a civil law property casebook for Louisiana Civil Law Property. It is very well organised and has very simple cases that are easy to read. You will learn about enthralling topics such as creation of the strip, who owns the strip, and how to steal property from your neighbors through the use of cows and other livestock (note, you should probably take note of trespass laws before you attempt this.) Mostly, this book is essential if you want to get a decent grade in Civil Law Property at LSU, TTTulane, Loyola, Southern, or another school crazy enough to offer coursework in louisiana civil law property. Enjoy One El year!0 of 0 people found the following review helpful. Good BookBy Latisha NixonProduct description was a little off however overall a great product and arrived very fast
