Richard Freer : Civil Procedure (Law School Legends Audio Series CD) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Civil Procedure (Law School Legends Audio Series CD):

3 of 3 people found the following review helpful. A helpful study aid. By Timoteo This course on CD covers thoroughly the basics of civil procedure. All major topics are touched-upon: federal subject matter jurisdiction, including diversity of citizenship jurisdiction and "arising under" (federal question) jurisdiction; the constitutional common law of personal jurisdiction; long arm statutes; venue; pleading; motions; discovery; impleader and interpleader; service of process; rule 11 sanctions; collateral estoppel and res judicata; etc. The lecturer's intonation and speech volume are steady and easily audible. He also has a sense of humour, in an appropriate way, and a way of teaching that make the subject matter memorable. This product was a good resource for me as a law student and it helped me on the bar exam. But I actually recommend this for non-lawyers too, at least in the United States. It has some fundamental legal concepts, applicable in a common law country such as the United States. Learn more about the legal systems of the United States. Includes foundational constitutional concepts relating to jurisdiction and federal jurisdiction. Some technical stuff, but it's mostly presented in an accessible way. 1 of 1 people found the following review helpful. Great for learning or refreshing civil procedure knowledge. Good for Bar review or supplementing the class. By William Allen Arnold I was one of the many who had a mental block as to learning Civil Procedure in law school. I have been getting ready for the Bar Exam and realized that I needed to relearn the entire subject in order to prepare. This set of discs has given me a mastery of the subject that I never expected to have. Just following along and outlining it with him will impart a good bit of knowledge and you will automatically have an outline that is less than 17 pages of the entire subject in addition to a segment on Conflicts of Laws. If you listen to it twice, then you are

ready for anything to do with Civ Pro. I wish this set of discs had been recommended in time for me to use during my actual law school class my 1L year. If so, I would have aced the class. This is one of the greatest tools I know for a civ pro student who is having trouble. It is 10 hours long, but you get the entire class. Somebody could just listen to the hour sections as it came up in class to supplement their learning and I bet it would be incredible. 0 of 0 people found the following review helpful. This is a really excellent overview of Civil Procedure By A. Miller Used this to study for the bar exam, but I wish I had it when I was a 1L. This is a really excellent overview of Civil Procedure. Professor Freer makes what is probably the most difficult 1L subject highly accessible. I would definitely recommend it in review for 1L exams or for bar review.

This audio lecture covers subject matter jurisdiction, personal jurisdiction, long arm statutes, and constitutional limitations. It also discusses in rem and quasi in rem jurisdiction, service of process, venue, transfer, forum non conveniens, removal, waiver, governing law, pleadings, and joinder of claims. Also included are permissive and compulsory joinder of parties, counterclaims and cross-claims, ancillary jurisdiction, impleader, class actions, discovery, pretrial adjudication, summary judgment trial, post trial motions, appeals, res judicata, and collateral estoppel. The new edition has references to all the newly restyled Federal Rules of Civil Procedure.

From the Author "Today we will de-mystify the foreign concepts you will find in Civil Procedure, and integrate them into a comprehensive whole. Believe it or not... we'll even have some fun with this!" From the Inside Flap Topics covered: Subject Matter Jurisdiction; Personal Jurisdiction; Long-Arm Statutes; Constitutional Limitations; In Rem and Quasi In Rem Jurisdiction; Service of Process; Venue; Transfer; Forum Non Conveniens; Removal; Waiver; Governing Law; Pleadings; Joinder of Claims; Permissive and Compulsory Joinder; Ancillary Jurisdiction; Impleader; Class Actions; Discovery; Pretrial Adjudication; Summary Judgment Trial; Post Trial Motions; Appeals; Res Judicata; Collateral Estoppel. About the Author Professor Richard D. Freer is the Robert Howell Hall Professor of Civil Procedure at Emory University School of Law. He is nationally recognized for his articles on a variety of topics in Federal Jurisdiction, Civil Procedure, and for his work as a contributing author to a major multi-volume treatise on Federal Practice. Professor Freer is also a co-author of the Freer Perdue casebook on Civil Procedure.
