Edwards Lazarus : Closed Chambers: The Rise, Fall, and Future of the Modern Supreme Court (Paperback)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Closed Chambers: The Rise, Fall, and Future of the Modern Supreme Court (Paperback):

0 of 0 people found the following review helpful. Erudite yet still compellingBy AmeripenThe Supreme Court is a body that is so important, but about which so little is known. Even, I think, the intelligence agencies are more public about the manner in which they operate. This book changes all that. I enjoyed it thoroughly. It is erudite yet still compelling. It has persuaded me to pursue a law degree.0 of 0 people found the following review helpful. Nothing but praiseBy TouffuLazarus does a great job explaining complex legal issues without dumbing them down and Justice Blackmun really comes alive on these pages. He's like one of those great fictional characters: you might have never heard of him before, never gave a damn and now you do. Totally captivating in some parts: no mean feat for a legal non-fic. The section on capital punishment should be required reading for all Amnesty International members (especially the non-American ones). Thank you Mr. Lazarus!0 of 0 people found the following review helpful. Significantly useful for my angloamerican law studiesBy Edoardo PalazzoloExactly what I expected. Significantly useful for my angloamerican law studies.

A historical and political account of supreme court decisions in america.
