**Jim Wassner : Code Enforcement in a Rural Jurisdiction** before purchasing it in order to gage whether or not it would be worth my time, and all praised Code Enforcement in a Rural Jurisdiction:

1 of 1 people found the following review helpful. Well Worth it's InformationBy CustomerVery informative on what Rural Code Enforcement Officers learn on a day to day basis handling the many aspects of dealing with code enforcement the people that do not follow the codes of the juriousdiction counties they enforce....' Very Helpful..Craig (retired contractor)0 of 0 people found the following review helpful. What a wonderful tool you have created for people who are looking ...By Nora Lea J WassnerWhat a wonderful tool you have created for people who are looking

to better understand what goes on in the world of code enforcement. You've made what I've always thought of as a complicated subject readable and easier to understand. You present your piece in a very well-researched, thorough manner and give your reader a lot to consider.

"Code Enforcement is at times an occupation of extremes. It involves cases ranging from the basic quality of life issues to serious health and safety issues. You will meet people on what is possibly the worst day of their life and you will be empathetic to their plight. But at times you will also get to witness their incredible strength and humanity. Some of your best days will be those where you are able to help a child or senior citizen who cannot help themselves, and help make a lasting improvement in their quality of life. Rural code enforcement officers face some different challenges than their fellow officers who are working in an urban environment. but many issues are the same wherever you are in this great country. Through this book I have tried to impart some of the wisdom that I gained through hard lessons learned during my 18 years in this profession. You must learn to work smarter, not faster or harder. The skill set that you are able to bring to this job, how you hone those many skills while on the job and how you conduct yourself with your customers will help determine if this career will hopefully bring you as much happiness as it did for me."
