T. Alexander Aleinikoff, David A. Martin, Hiroshi Motomura, Maryellen Fullerton : Immigration and Nationality Laws of the United States: Selected Statutes, Regulations and Forms, 2011 before purchasing it in order to gage whether or not it would be worth my time, and all praised Immigration and Nationality Laws of the United States: Selected Statutes, Regulations and Forms, 2011:

1 of 1 people found the following review helpful. Valid for a yearBy JulesAs with many supplemental materials to law school textbooks, you can get all of them online for free. Of course, it'll help in open book setting, though many textbooks include the relevant sections within them. Also, immigration law does change over time and as I've been

learning in class, it's totally different from only a few years ago. This book will be useless in a year. We ended up using only a fraction of the book in class but that fraction was pretty important. You probably won't have a choice in buying this, especially if you're having an open book exam. Buy the most recent edition.² of 2 people found the following review helpful. cheap and accurate
By Abt1nIt is a year old but the INA has not changed much in a year. I am using it in my immigration law class and follow along fine, while paying 10% the price of a new edition

This book serves as a one-stop source for the most important federal legislation affecting immigration and naturalization, supplementing any teaching materials on the subject. With its consistent timeliness and reasonable pricing, this publication is a staple in classrooms nationwide.
