He explains the problems and the solutions without getting too technical. Why this man is not on CNN or Fox News is puzzling. If you want to know how to solve the immigration problem cheaply, humanely, and without amnesty, check this book out. 0 of 0 people found the following review

helpful. A book for everyone beginning with members of congress and ...By WizardA book for everyone beginning with members of congress and the administration beginning with POTUS. The problems with our immigration system are outlined and described in detail with solutions suggested that are thought provoking to say the least. 0 of 0 people found the following review helpful. Let's Get RealBy Andrew BestMr. Cramer has made a significant and apodictic analysis of the broken immigration system. As a 34 year law enforcement officer I suggest that Neville W. Cramer be appointed as Secretary of Homeland Security.Cramer's solutions to the immigration chaos are exceptionally well reasoned and could save taxpayers billions of dollars. His documented waste of millions and millions of taxpayer dollars clearly demonstrates his experience and skills in the realm of immigration reform is palpable.I strongly recommend that every elected official in the United States read and study Cramer's book - and apply the text as a bible for future action.

One of the most experienced INS Special Agents in the U.S. Department of Justice divulges the real causes of America's seemingly uncontrollable immigration problems and suggests many practical solutions. His descriptions of the ineptitude, cronyism and political shennanigans inside the INS and now the Department of Homeland Security are both mind-boggling and scary. The reader will also learn more about nebulous terms like guest worker program, employer sanctions, and comprehensive immigration reform. The anecdotes and straightforward reasoning make this book a must read for anyone who is concerned about America's failing immigration policies.

Mr. Cramer has advanced degrees in law enforcement including a bachelor's degree from the University of Arizona and a master's degree from George Washington University. He is also a graduate of the prestigious FBI National Academy. Neville and his wife Timea reside in Scottsdale, Arizona, where he heads a successful consulting firm.
