The 2 "chapters" of this volume appear to consist entirely of material "excerpted" from publicly available reports from the Congressional Research Service. While those reports provide excellent and useful information, they are public documents prepared at taxpayer

expense. I cannot see any reason to buy this book when you can freely (and legally) download the content from sources like [...]. If you google "CRS report RL33351" and "CRS report RL32044" you will find the two reports on which this volume is based.

An estimated 11 million unauthorised aliens reside in the United States, and this population is estimated to increase by 500,000 annually. Each year, approximately 1 million aliens are apprehended trying to enter the United States illegally. All are violating the United States' immigration laws.
