From Brand: Institute of Criminology, Sydney : Indigenous Human Rights (Sydney Institute of Criminology Monograph) before purchasing it in order to gage whether or not it would be worth my time, and all praised

Indigenous Human Rights (Sydney Institute of Criminology Monograph):

This title assesses key issues relating to indigenous human rights worldwide, including racial discrimination, removal of children, law and order, indigenous cultural and intellectual property rights, self-government and prospects for the use in international law.

The book makes a valuable contribution to the discourse on Australian indigenous human rights from an international perspective. *Law Institute Journal (Vic)*, September 2003
