John Okray : Inside the Worlds Largest Legal Employer: Careers and Compensation with U.S. Federal Agencies before purchasing it in order to gage whether or not it would be worth my time, and all praised Inside the Worlds Largest Legal Employer: Careers and Compensation with U.S. Federal Agencies:

1 of 1 people found the following review helpful. Excellent resource! By D.L The book went into detail about U.S. Federal agencies, what each department of the agencies do, and the various type of attorneys. The data regarding attorney compensation was excellent, particularly since it is broken down by department, location, seniority, sex, race, etc. The disparity of salaries across different agencies was surprising, as was the fact that some agencies employ hundreds or even several thousand attorneys (or judges). If you're interested in the legal aspects or employment with

federal agencies you should find this book informative. Since there is a salary freeze on federal employees the compensation figures should be generally accurate for at least a couple of years. If the book was sold by West or the ABA it would probably be \$100, so it's a good deal for the price.

Within the U.S. Government, Federal agencies employ tens of thousands of legal professionals, including general attorneys, patent attorneys, administrative law judges and law clerks. Over 35,000 legal jobs across approximately one hundred entities are covered including all Cabinet level agencies and large, medium and small independent agencies. The book provides a straightforward guide for attorneys, judges and law students who may be interested in employment in U.S. Federal agencies. It will answer questions, such as: How many attorneys, judges and law clerks are employed within each agency? What do these agencies do and what roles and responsibilities do attorneys have? What are the specific attorney compensation levels within each agency? Where can I find information on agency-specific law clerk, new attorney and experienced attorney hiring programs? In what States, territories or foreign countries are agency attorneys located? Where can I find attorney employment statistics for each agency - male/female, minority employment, etc.? Across the spectrum of agencies and departments there is an incredible amount of diversity of legal careers. Attorneys of almost all disciplines work on legal topics including but not limited to civil rights, labor and employment, ethics, elections, criminal law, environmental conservation and protection, natural resources, foreign affairs, international trade, national security, military, agriculture, education, contracts, taxation, transportation, banking, finance, securities, communications, intellectual property, science and technology, health, housing and consumer safety. *Inside the World's Largest Legal Employer: Careers and Compensation with U.S. Federal Agencies* is the premier reference book on Federal agency legal employment.

About the Author John Okray serves as Deputy General Counsel of a financial services firm. He received his BA in political science from the University of Massachusetts Boston, a JD from Suffolk University Law School, an MBA from the Suffolk University Sawyer School of Management, and an LLM in taxation from Boston University School of Law. He has served on various public service and non-profit boards and is active in organized bar activities.
