**Kenneth Abraham : Insurance Law and Regulation: Cases and Materials, 5th Edition (University Casebook)**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Insurance Law and Regulation: Cases and Materials, 5th Edition (University Casebook):

0 of 0 people found the following review helpful. Survey bookBy AbdulsalamIts written in a really good and clear language. It gives you a good idea of about almost everything in insurance law in the US. However, It is filled with cases from all the states that are not really useful.0 of 0 people found the following review helpful. Great for a law school book.By HapCrazCoolI mean, what else can one say about a law book??? It teaches you what you need to know. Enough said.0 of 0 people found the following review helpful. A solid book for Insurance LawBy Ryan A.

SpencerA solid book that delves a little into a little bit of everything related to insurance law. Good notes section and basic coverage questions. They even include sample policies.

This casebook covers all major aspects of insurance law. It retains the same structure as previous editions, but adds new material about health insurance and regulatory reform, the AIG bailout and credit derivatives, and Directors Officers Liability insurance.
