Kenneth Abraham, Daniel Schwarcz : Insurance Law and Regulation (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Insurance Law and Regulation (University Casebook Series):

0 of 0 people found the following review helpful. Five StarsBy CTMGood book, had to get it for school.

This casebook, which has been used as the principal text in more than one hundred law schools, contains extensive material on insurance contract formation and interpretation; insurance regulation; insurable interest and liability for bad-faith breach; property, health, life, and disability insurance; commercial general liability and directors officers liability insurance; auto insurance; and reinsurance. The casebook gives equal emphasis to personal and commercial

insurance, and reprints within the relevant chapters four standard-form insurance policies. There is new material on the interpretation of ambiguities, insurance regulation, the Affordable Care Act, directors officers insurance, and excess coverage.
