Robert Keeton, Alan Widiss : Insurance Law (Hornbooks) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Insurance Law (Hornbooks):

This treatise explains how certain principles or doctrines such as insurable interests, designation of insurers, and risk transference apply to property, life, liability, or other types of insurance. It also addresses insurance law issues and suggests lines of analysis to consider in order to better evaluate the merits of a claim. Other subjects include conceptualization, classification, marketing, indemnity, insurability, claim processes, and settlements. Also overviews

insurance regulation, government sponsorship of insurance, and resolving disputed claims.

About the Author Professor of Law, University of Iowa.
