**OECD Organisation for Economic Co-operation and Development : Insurance Statistics Yearbook, 1996-2005**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Insurance Statistics Yearbook, 1996-2005:

This annual publication provides major official insurance statistics for all OECD countries including data on premiums collected, claims, and commissions by type of insurance; investments by type of investment; and numbers of companies and employees. Data for Singapore, which has an observer status to the OECD Insurance and Private Pensions Committee, are included in the online and CD-ROM editions of this publication. The data, which are

standardised as far as possible, are broken down under numerous sub-headings, and a series of indicators makes the characteristics of the national markets more readily comprehensible.
