Joanna Benjamin : Interests in Securities: A Proprietary Law Analysis of the International Securities Markets before purchasing it in order to gauge whether or not it would be worth my time, and all praised Interests in Securities:

A Proprietary Law Analysis of the International Securities Markets:

This book provides a clear and accessible analysis of the legal aspects of the international markets in securities. It considers the legal implications of the computerization and globalization of these markets, and the impact of the use of custodians, depositaries, and other intermediaries by investors and collateral takers holding interests in securities.

‘The great strength of the book ... is the account of how current financial products and services are legally structured ... the breadth of coverage and the application of the law to how things currently work in the City are very helpful.’*Law Quarterly* , 1 Oct 2001 ‘Dr Benjamin’s book is invaluable as a detailed and systematic account of the structure and operation of securities markets. Her knowledge of recent developments in this field in the UK is masterly, and her book is carefully researched.’*Trust Law International* , Vol15, No2 2001 About the Author Joanna Benjamin is Senior Lecturer in Law, Centre for Commercial Law Studies, Queen Mary and Westfield College, London, and Consultant at Clifford Chance, London.
