From Beck/Hart : International Investment Law: A Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised International Investment Law: A Handbook:

The growing importance of international investment law, fuelled by the processes of globalization and the search for natural resources, and fostered by the ease of cross-border financial flows, has given rise to a huge expansion in the incidence of new investment treaties and, consequently, new disputes. The complexity of this area and the enormous

sums of investment involved mean that the agreements and treaties themselves are highly evolved, while the disputes arising are often hugely intricate and intractable. No area of international law is more in need of the careful and balanced attention of scholars. Anyone interested in international investment law will appreciate this book's comprehensive, thoughtful, and detailed exploration. [Subject: International Law, Investment Law, Economic Law, Trade Law]

About the Author Marc Bungenberg is Chair of Public Law, European Law, Public International Law and International Economic Law at the University of Siegen and an Academic Advisor to the International Investment Law Centre Cologne.
