From Nomos Publishers : International Investment Law and General International Law: From Clinical Isolation to Systemic Integration? (Schriften zur Europäischen Integration und Internationalen Wirtschaftsordnung) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Investment Law and General International Law: From Clinical Isolation to Systemic Integration?

(Schriften zur Europäischen Integration und Internationalen Wirtschaftsordnung):

International investment law (IIL) is a highly specialized discipline, but does not exist in a legal vacuum. It is created, applied, and interpreted in a context of general legal concepts, including the law of treaties, State responsibility, diplomatic protection, and State immunity. The contributions to this volume assess the interrelation between IIL and these areas of general international law. They provide evidence of IIL 'opting out' of the general framework, but also of integration and cross-fertilization. Taken together, they illustrate the varied interactions between general international law and one of its most dynamic sub-areas. (Series: Schriften zur Europäischen Integration und Internationalen Wirtschaftsordnung - Vol. 24)
