**From Organization For Economic Co-Operation Development : International Migration Outlook: 2012** before purchasing it in order to gauge whether or not it would be worth my time, and all praised International Migration Outlook: 2012:

OECD's annual publication analysing recent developments in migration movements and policies in its countries. Each edition provides the latest statistical information on immigrant stocks and flows, immigrants in the labour market, and migration policies. This 2012 edition covers all OECD countries, as well as the Russian Federation, Bulgaria, Romania and Lithuania. Two special chapters complement the information on movements and policies: "Renewing the skills of ageing workforces: The role of migration" and "The Changing Role of Asia in International Migration". The

publication also features country profiles and a statistical annex.
