From Baraka Books : Justice Belied: The Unbalanced Scales of International Criminal Justice before purchasing it in order to gage whether or not it would be worth my time, and all praised Justice Belied: The Unbalanced Scales of International Criminal Justice:

Written by practicing criminal defense lawyers, jurists, investigators, and specialized journalists, this book criticizes the whole initiative of international criminal justice and considers the idea that it must be abandoned in the name of justice. Has foreign policy trumped justice? How are equity, equality before the law, absence of selectivity, protection of witnesses, and enforcement affected? How are lives of citizens throughout the world changed by International Justice? Asking the burning questions about criminal justice as it is practiced at the International Criminal Court, the ad-hoc tribunals for Rwanda, and the former Yugoslavia, Sierra Leone, this account will appeal to those interested in politics, law, and human rights.

"An enlightening book [in which the authors] do a remarkable job of spelling out these sorry conditions and calling for dismantling of the new International Criminal Justice System and return to the UN Charter and nation-based attention to dealing with injustice." Edward S. Herman, co-author, *Manufacturing Consent*
