InterestingBy judith eschenI am very interested in true stories and especially ones about law inforcement. I come from Jenine Pirros hometown and admire her dedication. The book was interesting but dragged a bit towards the end.

Deemed "the avenging angel of American justice" (Chris Matthews, *Hardball*), Jeanine Pirro, the famed Westchester County district attorney, presents hard truths about a justice system that she believes coddles criminals at the expense of innocent victims. Taking readers inside her daily battles on behalf of victims -- from the adolescent girl forced to assume wifely duties after her father murdered her stepmother to a hardworking man shot over a parking place -- District Attorney Pirro delivers a bold indictment of the criminal justice system and lays bare the ways in which parents, communities, and the system share complicity in fostering a dangerous environment for our citizens. With the blunt courage of a woman who has spent her entire career working in a male-dominated world, Pirro demonstrates determination and compassion that will inspire anyone who has ever been a victim -- or a victim's loved one. Finally, *To Punish and Protect* includes updated appendixes to help you and your loved ones make smart decisions about safety.

Judge Judy Sheindlin *To Punish and Protect* debunks the psychobabble of excuses for criminals and it serves as a battle cry for the rights of victims. I knew I liked Jeanine Pirro's style -- now I am a fan. Read her book and you will be, too. *Publishers Weekly* This book serves several purposes: to stoke public consciousness of crime and contempt for criminals, to mobilize support for toughening the penal laws, and to position the author as a remorselessly angry crusader....*New York Law Journal* I defy any reader...to be unmoved. *About the Author* Jeanine Pirro is the former district attorney of Westchester County, where she started the first domestic violence unit in a prosecutors office in the US. She is an Emmy Award winner, a legal analyst for Fox News, and the host of *Justice with Judge Jeanine*, as well as the author of several books, including *To Punish and Protect: Against a System That Coddles Criminals*. Catherine Whitney has coauthored more than fifty books on legal, political, and social issues, including *Where Have All the Leaders Gone?* and *The Weekend That Changed Wall Street*. She lives in New York.
