From Brand: Springer : Tort and Regulatory Law (Tort and Insurance Law) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tort and Regulatory Law (Tort and Insurance Law):

Here is a systematic analysis of the interaction of administrative law and tort law. The focus is mainly on safety regulations and provisions aimed at environmental protection. There are reports from the European Union, Norway,

Switzerland and the USA, as well as three special reports from the perspectives of administrative and regulatory law and of insurance. An economic analysis is included. The results are summarized in a comparative report, followed by conclusions.
