Robert Pitofsky, Harvey Goldschmid, Diane Wood : Trade Regulation: Cases and Materials, 6th Edition (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Trade Regulation: Cases and Materials, 6th Edition (University Casebook Series):

5 of 5 people found the following review helpful. Worst. Casebook. Ever.By Js683If your professor assigned this book, you might as well just jump off a bridge now. This is the most horribly edited casebook I've come across yet--- 20 page case excerpts??? 15 page dissents??? The authors must have been paid by the page for this one. A complete joke. Not only are the cases poorly edited as such, but the book is just generally rambling, confusing, and offers very little in the way of explanation/commentary. Be prepared to teach yourself Antitrust and also cry yourself to sleep every night.

This casebook provides an overview of trade regulation, including an integrated discussion of the major antitrust guidelines from the Department of Justice and the Federal Trade Commission during the 1990s and significant antitrust process issues. The books comparative law materials reflect expanded antitrust systems of other nations, and a series of economic essays and notes offer views on antitrust policy development.
