Thomas A. Dickerson : Travel Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Travel Law:

Whether you are an attorney or a member of the travel industry itself, "Travel Law" will help you get the red-carpet treatment in court! "Travel Law" shows you how to use contracts between operators and suppliers to the traveler's advantage; how to pinpoint the risks of supplying travel services; how to overcome disclaimers of liability often appearing in agreements imposed on travelers; how to employ state long-arm statutes to obtain jurisdiction over foreign travel suppliers; how to use the Warsaw Convention - frequently invoked by airlines to limit their liability - to the traveler's benefit; how to determine when to file a classaction; and more. You'll find out about holding sporting event tour operators liable; settling class actions with coupons or credits; making the most of the responsibility of hotels and airlines for overbooking and "bumping"; and handling transfers of frequent-flyer bonus credits by coupon brokers. This book is updated as needed, generally two times each year. Now Available Online with New All-Inclusive
