For the most part, a healthy dose of self-help is prudent and cost-effective.This book describes common scenarios and basic legal cases in what can only be described as "story book" form - clear, concise and direct. I have read all the self help manuals and this one deserves your review.If you have a simple immigration case..get this book, read it and follow the directions carefully. You will save thousands in attorney fees.1 of 1 people found the following review helpful. Immigration Law StudentBy Nadia S.This book is wonderful! It outlines the major aspects of Immigration Law, ideal for someone filing

a petition, someone learning about Immigration Law, or who is working in the field and want some advanced knowledge (like myself). Definitely easy to read, forms are provided in the appendix. I consider it my bible to Immigration Law. 0 of 0 people found the following review helpful. US Immigration and Citizenship: Your complete Guide By Books of Old This book gives detail information that will not only educate but assist a non-legal individual into performing some basic and necessary immigration process that will save hundreds of \$\$\$s. I believe that this book is a must for all those who see immigration services. I give it an A+.

Researched and written by a top immigration lawyer, here's the complete reference for anyone needing the most recent information to immigrate legally to the United States, including instructions for registering visas, green cards, citizenship and more.
