city hall after all. And win! How encouraging to read about two ordinary people who get extraordinary results by simply writing letters (to the right people), by creatively directing their anger, by using humor and persuasion--and by occasionally employing humiliation and the threat of a lawsuit--to convince those in power to clean up their act. Inspiring, empowering, and so interesting to read. There's hope for all of us.4 of 4 people found the following review helpful. A Remarkable StoryBy Rhoda ForteTo imagine that two pro-active people who effectively spent their lives championing social justice causes should be relatively unknown to the general population. Thank goodness this book has been written so we can all know how taking action can pay off in changes in laws, in habits and in the general climate for equality. A true inspiration. The book reads like a biography of two extraordinary people who could in fact be any one of us, and as a handbook for making change, for being responsible and accountable. It is an important document and I am going to see to it that several of my friends and family receive copies.2 of 2 people found the following review helpful. Moral ExampleBy Rosalyn ReederWhat Two Can Do is a pageturner. The author succeeds in making a biography read like a novel. This book deserves to be bought and read by hordes of people, even those who have never heard of Sam and Mandy Stellman, on the basis of the morality they exemplify and on the writing model in which their story is couched.

A Milwaukee couple shares their secrets to influence social change in a new biography. Sam and Mandy Stellman helped reform sexual assault laws and counseled men who abuse women.

From Publishers WeeklyAfter learning they were infected with HIV, lovers and AIDS activists Krandall Kraus (The President's Son, etc.) and Paul Borja decided to live out their remaining time with a renewed sense of purpose and focus. In their inspirational book, It's Never About What It's About: What We Learned About Living While Waiting to Die, they share their new life philosophy and their insights into our deepest emotions (for example, frustration and anger often mask deep-seated fear). For the reader intrigued by the relationship between the metaphysical and everyday experience, Kraus and Borja provide a provocative journey. (Alyson, \$12.95 paper 208p ISBN 1-55583-571-6; Aug.) Chris Benguhe, who became a writer to help make the world a better place, celebrates "the most important things in life... people and the support and love we give each other" in Triumphs of the Heart: Miraculous True Stories of the Power of Love, with an introduction by George W. Bush. Though presented with forced drama, many of these 25 tales of real people's heroism, compassion and generosity are hopeful and inspiring. Agents, Becker Mayer.
