absolutely loved this book. "Whatever Happened to Lady Justice" is a compelling and fascinating story of the criminal justice system from Mr. Vincent Carraher, a man who clearly knows the ins and outs of our judicial system. Mr. Carraher's years of experience and passion for truth, justice and his community shine through this work, and after reading I could not be help but be inspired to make a difference in my own community. It is rare to read a case study of our justice system that is so unafraid to point out the faults and the people that are harmed by it, yet so positive in looking to the future of criminal justice. Mr. Carraher had the opportunity to sit down and speak with some of the most prominent lawyers in the country, experts in investigation, as well as Supreme Court justices which lends the book instant credibility and depth. To anyone who is interested in criminal law, the judicial system, or just interested in helping their own community and ensuring justice remains the most important goal of the courts, this books is a must read. Truly inspiring, one of my favorites of the year. Buy this book.0 of 0 people found the following review helpful. Vince Carraher the Super Investigators--Super InvestigatorBy Robert P. OlsonVince Carraher spent 40 plus years investigating the highest of crimes imaginable on behalf of those so charged and their counsel. His unprecedented work leads the reader down the same roads he travelled in delivering the best of investigative talents and services for his, far more often than not, tragically slotted clients. Vince also includes several interviews with Criminal Defense Lawyers, who are true Masters of their craft, that were involved in the cases he worked. This spectacular collection really hits the ball way, way out of the park when it comes to Criminal Defense Investigation of the highest of crimes. A must read for all interested in True Tales from the trenches of the Criminal Defense world!!!!0 of 0 people found the following review helpful. CompellingBy True ReaderAn awesome book to read and I had a tough time putting it down!So real, and finally someone tell's it like it is as opposed to the crime drama's on TV

This book is the incredible true crime stories of defense attorneys investigator Vincent Carraher. Vinnie has been involved in some of the most famous and infamous cases in the country. From the Congdon murders to the Scott county child abuse cases Vinnie has been an eyewitness to overzealous prosecutors and police. He has worked with the best defense attorneys in the country from F.Lee Bailey to Ronald Meshbesh. Vinnie has worked on wrongly convicted cases such as Ralph "Plookie" Duke and others. Vinnie brings a voice to the legal system that is rarely ever heard.

About the AuthorVincent Carraher has over 40 years of experience as a criminal defense investigator. This is his first book.It is a real labor of love. Standing up and speaking out is the primary motivation for this book. Another motivational factor was suggestions from friends and acquaintances over the years that vinnie write about cases he has investigated that are interesting to the public and involve high profile attorneys in the State of Minnesota. he will focus primarily on the legal system and the criminal justice system in particular. The cases he cites illustrate governmental abuse of power by police, prosecutors, government informants and various state and federal agencies.
