**G. Gordon Liddy : Will: The Autobiography of G. Gordon Liddy** before purchasing it in order to gage whether or not it would be worth my time, and all praised Will: The Autobiography of G. Gordon Liddy:

0 of 0 people found the following review helpful. Why did I wait 25 years to verify the truth about the inner workings of our GovernmentBy Gary J. ChenettI am sure as I write this in December of 2016 that few will read this after me. I like many Americans feel I wasted valuable years of my life not investigating just what the top end of our Government likely works like. It's a sad narrative about a American Patriot in the case of Gordon who has morals yet also has taken

a vow to protect and serve our President and his friends. I salute Libby for having the strength to stand up against the Media and the Government and giving 14 years of his life to cover the back of a terribly corrupt President and his staff. This book should be a must read in High School Government classes

A peek into one of the greatest minds in history  
By The Viking  
This is my second copy - not to mention the VHS tape, LOL. Starts off a little slow but it's thorough and appropriately sets the background to help you see into the mind of this amazing man. After reading this you may never feel like a real man again. :)

What does the G stand for anyway????  
By susie q  
Is G. Gordon a nut? Without question. Is the book a great read, yes. I am an old guy and offered a copy to my 17 yr old son to provide an example of how our standards have migrated, evolved, changed, hmmm, I am not sure, but if one has not read this book, we still sleep well at night. Well, you should not. However, do I admire the depth of this guy?, yes, I confess I am forced to drink his Kool-Aid of conviction strength. One can read the whole book just waiting for the candle scene. I am no fan of the guys who advocated the coverup of the Watergate break in but I find them, and Liddy, fascinating. It's a pretty good slice of the times. Guilty pleasure.

From soldier to Washington insider; from a prisoner who preferred the walls of a prison rather than the betrayal of his principles; to a writer and top radio personality, G. Gordon Liddy is a hero to some, a villain to others, but always an enigma. In 1980, G. Gordon Liddy shocked, surprised, and, ultimately, delighted the world with his vivid, brutally honest, and controversial autobiography, *Will*. A number one national bestseller in both hardcover and paperback, *Will* has stood the test of time like few other books. With over 1,000,000 copies in print, it is nothing less than a quintessential American biography—a classic story of a life interestingly led. Now available in hardcover for the first time in over fifteen years, and updated to bring his amazing story to the present day, G. Gordon Liddy's *Will* is sure to remain an inspiring and necessary volume for generations to come.

G. Gordon Liddy's autobiography is as spookily fascinating now as it was in 1980, especially the memorably unvarnished depiction of his early years. Listening with admiration to Adolf Hitler on the radio, seeking to free himself from "disabling emotionalism" by slaughtering chickens, young Gordon must have made quite an impression on the neighbors. The army, the F.B.I., the Watergate scandal, and jail are covered with equal pungency: you have to admire the author's ferocious candor, whatever you think of his values. This new edition features a 1996 postscript as combative as the main text. "Will is, I think, destined to become a classic; certainly it is one of the most engrossing and thoroughly honest self-revelations that I have ever read. This one you've absolutely got to read." --Denver Post  
"There is almost an embarrassment of riches in this book. His story rings true...It is credible. A hundred little facts and inferences convince me that he has been as honest as he could be." --Bob Woodward, *The Washington Post Book World*  
"Candid...forthright...lucid...graphic...intelligent...mind-boggling...outrageous. Whatever else may be said of Mr. Liddy, he is a True Believer." --Larry King, *The New York Times Book*  
"An unusual and fascinating book...Will is a great deal more than just Liddy's view of Watergate. Extremely well-written, constantly enthralling. Liddy also includes a scathing indictment of Judge John Sirica; a clean and concise history of the FBI; an expose of the federal prison system; and an incredible analysis of the general moral health and welfare in the United States...No matter what your preconceived notion of G. Gordon Liddy may be, this book will not leave you unmoved." --Fort Worth Star-Telegram  
"Will is a knockout of a book that will totally fascinate the reader. But it is the humor that you never quite suspect will be there that really grabs you." --West Coast of Books  
"Intelligent...intimate...worth reading." --Los Angeles Times  
"Liddy is a memorable man, to put it mildly, and one whom history is not likely to forget, you may be sure." --Philadelphia Inquirer
