From Routledge-Cavendish : Women and Immigration Law: New Variations on Classical Feminist Themes before purchasing it in order to gage whether or not it would be worth my time, and all praised Women and Immigration Law: New Variations on Classical Feminist Themes:

This book examines immigration law from a gender perspective. It shows how immigration law situates gender

conflicts outside the national order, projecting them onto non-western countries, exotic cultures, clandestine labour and criminal organizations. In doing so, immigration law sustains the illusion that gender conflicts have moved beyond the pale of European experience. In fact, the classical feminist themes of patriarchy, the gendered division of labour and sexual violence are still being played out at the heart of Europe's societies, involving both citizens and migrants. This collection of essays demonstrates how the seemingly marginal perspective of immigration law highlights Europe's unresolved gender conflicts and how a gender perspective can help us to rethink immigration law.

"This book provides a refreshing approach to issues relating to women subject to immigration law...it effectively confirms that immigration law can be rejuvenated through the feminist lens and shows how the experiences of migrant women can advance feminist thinking...This book deserves the attention of anyone interested in gender, law and migration." - Vanessa Bettinson and Alwyn Jones, *Journal of Immigration, Asylum and Nationality Law*, Vol 22, no 2.

About the Author Dr. Sarah van Walsum is senior researcher in Migration law. Dr. Thomas Spijkerboer is professor of Migration law. Both work at the Vrije Universiteit Amsterdam, the Netherlands.
