Joseph Covino Jr. : Yet Another Way The Federal Government Loots Its Citizens before purchasing it in order to gage whether or not it would be worth my time, and all praised Yet Another Way The Federal Government Loots Its Citizens:

Yet Another Way The Federal Government Loots Its Citizens: Yet Another Federal Rip-Off exposes the insidious

collection practice exploited to collect debts owed to the United States federal government by individual taxpaying citizens: whereby the Internal Revenue Service(IRS)seizes through federal offset, so-called, the annual personal income tax refunds due taxpayers to forcibly repay dubious debts purportedly owed to various federal departments. Imposed on untold, unwitting taxpayers, this unscrupulous federal debt collection practice is deliberately designed to both compound and perpetuate long-term debt in particular, by crediting refunds seized not to the original principal debt owed, but rather to the outstanding and typically exorbitant interest incurred-in addition to those other arbitrary and capricious amounts of so-called "feescosts" most unreasonably assessed. Named as negligently complicit in the specific case-study cited are do-nothing, good-for-nothing United States Representatives, Barbara Lee and John Garamendi. This pamphlet defiantly takes to task the entire imperious federal government as it brings to light its most corrupt mal-practice: legalized extortion of its citizens-especially in view of its richly irresponsible impoverishment of America, displayed most conspicuously through both its moral and monetary bankruptcy both at home and abroad. Let it raise yet another rallying cry for the next revolutionary TEA PARTY!
