By Customer
I purchased this book to just understand the bail process as it currently exists in Virginia. I think this author gives a good presentation that is understandable by the non-legal reader. The background of the bail process he writes about was interesting to me. I would like to see this author write a more detailed book about the bail process sometime soon.

This book calls into question some of Virginia's established criminal justice laws and procedures. Dan Barto, a Virginia bail bondsman, makes a case against established procedures, such as suspending driver's licenses for failing to pay fees and fines and putting defendant's through punishment before being found guilty. The latter topic calls for a scathing takedown of the pretrial services lobby. His arguments, backed with documentation, are also peppered with personal experiences and anecdotes for illustrative and entertainment value.

From the Back Cover
When someone is arrested, is it right to place that person on parole while he or she is awaiting trial? If someone cannot pay a fine, should that person's driver's license be suspended? Does Chesterfield really deserve the moniker Arrest-A-Field?
